Direction	Text	<p>The Thruway has two types of toll systems – <b>Barrier</b> and <b>Controlled</b>.</p> <p><b>Barrier</b> toll systems (i.e., used on a bridge) charge a fixed fee based on vehicle type for passing the toll barrier. Some Barriers charge toll only in one direction, others charge in both directions. For Barriers in this data set, the Direction Field is either N or S. If the Barrier collects tolls in both directions, there will be data for both N <b>and</b> S. If the Barrier collects tolls only in one direction, the Direction Field will be N <b>or</b> S.</p>	

		<p><b>N</b> – toll collected in the Northbound direction  <b>S</b> - tolls are collected in the Southbound direction</p> <p><b>Controlled</b> toll systems collect tolls based on a distance traveled and vehicle type. For Controlled toll plazas, there will be data for vehicles entering the Thruway (E) and exiting the Thruway (X). The only exceptions are exits 16H and 16W, which only have exit and entry lanes respectively.</p> <p><b>E</b> – vehicles entering the Thruway at this location  <b>X</b> – vehicles exiting the Thruway at this location</p>
E-ZPass Total Vehicle Count	Number	<p>NUMBER of vehicles, using E-ZPass, that passed the toll plaza in the direction denoted in the Direction Field that used E-ZPass.</p> <p>For example: 196 vehicles passed the Plaza 6 (Yonkers) in the northbound direction on January 1, 2013 between 12:00am and 1:00am and used E-ZPass.</p>
Cash Total Vehicle Count	Number	<p>NUMBER of vehicles, using cash, that passed the toll plaza in the direction denoted in the Direction Field that used Cash.</p> <p>For example: 85 vehicles passed Plaza 6 (Yonkers) in the northbound direction on January 1, 2013 between 12:00am and 1:00am and used Cash</p>
